# **Communications Publications Collection**

## **1929-1989**

### **COLL/516**

**Creator:** Naval Network and Space Operations Command

**Extent:** Total boxes: 20

Cubic feet: 7

**Inclusive Dates:** 1929-1989

**Access:** Open to the public but a very large number of documents have been referred to other agencies for further declassification review.

**Classification:** The collection contained documents classified up to Secret. There was a Kyl-Lott "Declassification Review" in March 2005 and a very large number of documents were referred to other agencies for further declassification review and those records remain classified until that review is conducted.

#### **Scope and Content Note**

The Operational Archives Branch received this collection from the Naval Network and Space Operations Command Detachment (NNSOCDET) prior to its disestablishment. It was assembled from documents received by NNSOCDET and its predecessors, and constitutes a comprehensive, though incomplete, set of U.S. Navy and Allied communications protocols spanning 70 years of operations.

When received from NNSOCDET, the collection was unorganized. The organization established in this collection during processing was by publication number. The two largest series of publications are Allied Communications Publications (ACP) and Joint Army, Navy, Air Force Publications (JANAP). A smaller number of other types of publications are also included.

The final box contains unnumbered publications arranged alphabetically by title.

#### **Subject Headings (LCSH)**

Communications, Military-Handbooks, Manuals, etc.

United States. Navy-Communications Systems.

United States. Navy-Handbooks, Manuals, etc.
