Scope and Content Notes

This is an artificial collection that describes the records culled from the area files of the Chief of Naval Operations Flag Plot office. The bulk of the records relate to naval operations in the South Asia Theater and the Republic of Vietnam (South Vietnam); the Subject Files series contains records relating to United States military operations world-wide. The originating activities functional arrangement has only been maintained in the Subject Files series, the remainder, while approximating original higher level arrangement, have been to a large extent re-arranged topically in the body of the collection.

The Subject File arrangement is as follows:

- I. Records of Commander Naval Forces Vietnam

 - General Message Files
 - Messages Relating to Task Force 115
 - Messages Relating to Task Force 116
