2. Commander's Assessment

The Commander's Assessment briefly tells the story of the command's role in national defense and should highlight any general and specific lessons-learned. It should contain the commander's commentary, insights and reflections on the unit's activities. Attention should be directed to significant issues impacting training, operations and mission accomplishment during the reporting period. Descriptions of circumstances and sequence of events leading to major command decisions and results of those decisions are particularly desired. Also desired are accounts of specific contributions of individuals in the command to mission accomplishment. For units engaged in or directly supporting combat, significant wartime or peacetime operations (named operations, non-combat evacuation operations, disaster relief or other humanitarian operations, etc.) or major exercises, particular attention should be given to the commander's estimate of the situation, records of discussions and decisions, descriptions of circumstances and sequence of events leading to operational decisions and results of those decisions. For a unit returning from deployment or participating in a single operation this can normally be a single assessment. For higher-echelon commands or units engaging in multiple operations, a separate assessment for each operation in addition to an overall assessment may be appropriate.

The personnel of USS CHAFEE embodied the vision of the Chief of Naval Operations and, utilizing both tactical and diplomatic skill, advanced regional maritime awareness, engagement, security of freedom of passage. Consistently conducting challenging support missions in an outstanding fashion, CHAFEE and her crew led the way in operational employment, professional development, and tactical innovation. She began a legacy of unparalleled success in providing maritime domain awareness to the Task Force Commander, regional presence, and strategic deterrence in the Western Pacific area of operations. Traversing the entire Western Pacific area, USS CHAFEE

aggressively engaged in sensitive national tasking, regional engagement, surveillance and reconnaissance, maritime security enforcement, and theater security cooperation.

Specifically, CHAFEE and her crew executed an unprecedented level of engagement with regional navies and strengthened tentative international relationships. Seizing upon every opportunity, she superbly executed both unexpected and preplanned training with Japanese Maritime Defense Forces, Republic of Korea-Navy, Russian, and Vietnamese Naval Units. Not to rely solely on tactical prowess, CHAFEE advanced diplomatic-military engagements, specifically when she hosted the Republic of Korea Chairman of the Joint Chiefs of Staff during exercise FOAL EAGLE. CHAFEE's specific engagements and subsequent reporting have greatly increased the United States' awareness of regional maritime activities and has reassured allies, partners, and friends of the commitment to United States policy and interests in the Western Pacific Area.

Utilizing a broad spectrum of engagement and reconnaissance opportunities, CHAFEE employed and positioned installed systems to maximize surveillance, reconnaissance, and locations of regional units. CHAFEE exploited and synthesized national and tactical level systems to develop accurate and actionable intelligence for the Task Force Commander. Operating in a swift and professional manner, CHAFEE provided short notice support for a National Ballistic Missile Defense Mission. Her actions reinforced and strengthened the capabilities of the United States government and Department of Defense to engage our Western Pacific allies and advance our mutual interest in regional freedom of maritime transit and security.

Capable both as an independent unit and as part of a larger Strike Group, CHAFEE seamlessly integrated with the USS CARL VINSON Strike Group, providing Anti-Submarine Screening for the Force while transiting regionally sensitive areas. While acting as both Air Defense Commander and Sea Combat Commander, USS CHAFEE provided complete maritime domain awareness, prepared the battlespace ahead of the ESSEX Amphibious Readiness group, and provided Air Defense of USS TORTUGA amphibious landing operations during COBRA GOLD. USS CHAFEE provided air defense while acting as Air Defense Commander for the Combined Republic of Korea and ESSEX Amphibious Force operations during SSANG YONG.

Able to transition seamlessly between mission and partners, CHAFEE, operating in concert with Naval Special Warfare personnel, refined Maritime Interdiction Operations tactics and procedures, paving the way for future Cruiser/Destroyer platform and Naval Special Warfare Joint Operations. Her surveillance and reconnaissance dramatically increased United States Coast Guard Maritime Domain Awareness in the Pacific island nations of Oceania, strengthening bilateral agreements and reducing illegal activities in their Economic Exclusion Zones.

Proving versatility in either Department of Defense or Department of State mission sets, CHAFEE provided U.S. Embassies in Australia, the Republic of Philippines, and Western Samoa venues. Her targeted community relations projects enhanced their strategic messages and enhanced international relationships in the region. USS CHAFEE's performance during the 70th Anniversary of the Bombing of Darwin was lauded by the

Ambassador as the best he had ever seen. The Chief of Mission similarly lauded the "America in 3D" program in the Republic of Philippines.

CHAFEE's accomplishments, in military tactical skill and knowledge, diplomatic ease of engagement, and mission capability across the sectors of DOD unit cooperation and task effectiveness, singlehandedly advanced the mission and vision of the Chief of Naval Operations, the Department of Defense. CHAFEE and her crew executed a broad range of missions with tactical skill, knowledge, finesse and ease. USS CHAFEE consistently demonstrated, through their achievements across a broad spectrum of assignments, as proof of how a unit of Naval professionals can advance relationships, alliances, and regional security.

The short narrative should amplify chronology entries (such as objectives and results of exercises/operations; commander's evaluation of exercises/operations, etc). Entries may refer to an enclosure of this report without additional description if the enclosure sufficiently reports the incident/event. For all other entries, give the date or period in YYYY-MM-DD format and provide a brief narrative. All significant events during the reporting period are to be included.

CHAFEE defined 2012 as a year of advancement in the world arena of regional engagement through diplomatic efforts and tactical skill. She began 2012 forward deployed in support of Seventh Fleet operational tasking - milestones achieved include 60,000 nautical miles traveled, 95 sailors advanced (above the Navy average), and over 200 sorties flown for 540 mishap free flight hours. CHAFEE set her deployment to execute Department of Defense directives for maritime freedom and global alliances throughout the Asia Pacific region. Enclosures (1) through (15) provide more detail for

CHAFEE's warfighting certifications and operational mission accomplishments. Photos (1) through (3), (9) and (10) of CHAFEE and her crew are enclosed.

Her pursuit of sustained, engaged and focused alliances in Asia-Pacific region advanced Department of Defense and the Chief of Naval Operations' mission of global reach, joint operational access, and maritime freedom through cooperative relations with an expanding set of allies and international partners. Successfully embarking and supporting Special Operations with Naval Special Warfare Unit, CHAFEE also enhanced joint warfighting capabilities and refined joint maritime relationships.

Intended to maintain maritime freedom of action, CHAFEE provided vital regional surveillance and reconnaissance during a high profile transit through the Straits of Taiwan. CHAFEE further developed joint operational capabilities during COBRA GOLD, an exercise with the United States Marine Corps, held off the coast and on the shores of Thailand. Joint and global alliances were strengthened during FOAL EAGLE SSANG YONG (MEBEX), an exercise with Republic of Korea Marines, when CHAFEE hosted the Republic of Korea Chairmain of the Joint Chiefs.

After successful joint mission execution, CHAFEE continued to progress global partnership during the commemoration of the Seventieth Anniversary of the Bombing of Darwin, Australia. CHAFEE seized on the opportunity for international diplomacy, and hosted the US Ambassador to Australia, NT Administrator, Headquarters Northern Command Australia, Northern Territory Chief Minister, MLA Speaker for the NT Legislative Assembly, Senator for the NT, the Lord Mayor of Darwin, and Senior Naval Officer Northern Australia. CHAFEE again progressed vital development of partner nation ports in Iloilo, Philippines for the international celebration of "America in 3D". CHAFEE's meritorious actions and services, including several volunteer events and an official reception onboard for local and international political players (DCM-US Embassy, members of the Philippine House of Representatives, members of Philippine Departments of Education and Interior, Iloilo governmental officials, and several local business representatives), singlehandedly enhanced global alliance building and deterred anti-Western sentiment. Enclosures (16) and (17) provide all names and positions of VIP guests, and Photos (6) through (8) and (22) provide visual support of successful personal alliance building.

CHAFEE culminated global diplomacy efforts in Samoa, helping to celebrate the Fiftieth Anniversary of Independence. Officials guests included UN Under Secretary General, US Deputy Assistant Secretary of State, Commander, Pacific Fleet, the King of Tonga, the Head of State of Samoa, Deputy New Zealand High Commissioner, New Zealand Chief of Navy, and several Embassy representatives, Governors and Commanding Officers. Enclosure (18) provides all names and positions of VIP guests. Photos (4) and (27) enclosed. Agreement signing celebrating Samoa's Fiftieth Anniversary of Independence and recognizing the strength of alliance between the two nations in increasing US Coast Guard Maritime Domain Awareness.

CHAFEE also displayed global citizenship during several professionally executed port visits. Notable port calls included Philippines, Guam, Singapore, South Korea, Japan and Vietnam, where alliances were built through a barbecue and soccer game with local

university students. CHAFEE engaged with Russia through several professional maritime drills and an established camaraderie during a volleyball game on the deck of the Russian Udaloy. Photo (34) enclosed.

CHAFEE's professional maritime engagement, during joint and international operations, also provided tactical expertise to regional units in support of advanced alliances and supported agreements and treaties. Serving as both Air Defense Commander and Sea Combat Commander, CHAFEE seamlessly integrated with Republic of Korea and the USS ESSEX Amphibious Readiness Group. Her expert employment of installed systems provided vital intelligence for the Task Force Commander. Engaged in international maritime training during Passing Exercises (PASSEX) with Japanese Maritime Defense Forces, Republic of Korea-Navy, Russian and Vietnamese Naval Units. Seamlessly transitioned between Department of Defense and Department of State missions, representing the United States and her Navy as the "global force for good." Photos (24) through (26) enclosed.

CHAFEE finished her highly lauded deployment in joint operations with the United States Coast Guard. Provided reconnaissance and maritime fishery stability in the EEZ (Economic Exclusion Zones), maintaining economic enforcement for the Pacific Island Nation. Provided vital regional security and illegal activity trend analysis information for United States Coast Guard District Fourteen. Her successful deployment was highly lauded. Enclosures (19) through (29) support. Additional photos (5), (11) through (13), (15) through (17), (19), (23), (31) and (36) enclosed.

CHAFEE followed her exceptional record of achievement with further display of expertise in all warfare areas. Two live firings of Standard Missiles, executing precise intercepts against subsonic targets. Photo (14) and (33) enclosed. Additional play as Air Defense Commander for the multi-national Task Group and as opposing forces. Hosted Secretary of the Navy (SECNAV), the honorable Ray Mabus, for the Great Green Fleet demonstration. CHAFEE presented Energy Conservation Initiatives to the Secretary of the Navy, Chief of Naval Operations, Commander Pacific Fleet, Commander THIRD Fleet, Congressional Staff Delegation, Lieutenant Governor of Hawaii, and numerous prominent business leaders - photo (28) and (29). Promoted and enhanced SECNAV Energy Conservation Vision by utilizing 250,000 gallons of BIO-FUEL.

CHAFEE again proved her tactical and battle theory prowess during 2012 VALIANT SHIELD, for which she was a by-name request. The exercise, held off the coast of Guam, provided US SEVENTH Fleet forces the opportunity to test engagement procedures and skills against an independent steamer of opposing forces. CHAFEE performed superbly, receiving accolades from Commander Destroyer Squadron FIFTEEN for her stealth and expert execution. Also provided BQM-74 launch and recovery services for Carrier Air Wing FIVE, USS COWPENS, USS JOHN S. MCCAIN, USS FITZGERALD, USS MCCAMPBELL, and USS MUSTIN.

In October, CHAFEE participated in SCC OPS (Submarine Commander's Course Operations), providing testing for a new tactical submarine towed array onboard a Los Angeles-class submarine. Demonstrated usefulness of new equipment onboard the

submarine, as well as proven continued proficiency of CHAFEE's Anti-Submarine Warfare Team.

Certifying in areas of Aviation, Search and Rescue and Explosive Safety, CHAFEE closed out the year by ensuring personal and unit mission readiness. A focus on responsibility and professionalism during holiday safety stand-down and Sexual Assault Prevention training resulted in zero incidents during the one month holiday leave period. A rigorous Continuous Maintenance Availability period enhanced equipment proficiency and ensured shipboard readiness.

4. Supporting Reports

Supporting Reports are those reports required by other instructions that provide significant data about the command during the calendar year. These reports may be submitted “as is,” eliminating the need to duplicate information for this report that is already contained in reports prepared in response to other instructions and requirements. Examples include battle efficiency, safety and other award submissions, major staff or command studies, and end of cruise reports or briefs. For units engaged in or directly supporting combat, significant wartime or peacetime operations (named operations, non-combat evacuation operations, disaster relief or other humanitarian operations, etc.) or major exercises, enclosures may include, but are not limited to:

- a. Situation Reports
- b. Intentions Messages
- c. Operational Reports
- d. Operations Orders/Deployment Orders
- e. Operational Plans
- f. Personal For Messages
- g. After Action Reports
- h. Significant Electronic Message Traffic (outgoing/e-mail/chat)
- i. Battle Damage Assessments
- j. Casualty Reports
- k. End-of-Cruise/Deployment Reports
- l. Intelligence Summaries
- m. Major Exercise Reports

List below the items submitted, indicating the classification of each. Electronic reports should be in a Microsoft Office format (Word, Excel, Power Point, or Access), HTML, PDF, JPG, GIF, or plain text. It is unnecessary to convert non-electronic documents to electronic format. Submit electronic reports via e-mail or on CD-ROM as explained at the end of this form. Enclosures that do not exist in electronic format should be listed below and submitted in hardcopy in the same manner as a CD-ROM.
