2. Commander's Assessment

The Commander's Assessment briefly tells the story of the command's role in national defense and should highlight any general and specific lessons-learned. It should contain the commander's commentary, insights and reflections on the unit's activities. Attention should be directed to significant issues impacting training, operations and mission accomplishment during the reporting period. Descriptions of circumstances and sequence of events leading to major command decisions and results of those decisions are particularly desired. Also desired are accounts of specific contributions of individuals in the command to mission accomplishment. For units engaged in or directly supporting combat, significant wartime or peacetime operations (named operations, non-combat evacuation operations, disaster relief or other humanitarian operations, etc.) or major exercises, particular attention should be given to the commander's estimate of the situation, records of discussions and decisions, descriptions of circumstances and sequence of events leading to operational decisions and results of those decisions. For a unit returning from deployment or participating in a single operation this can normally be a single assessment. For higher-echelon commands or units engaging in multiple operations, a separate assessment for each operation in addition to an overall assessment may be appropriate.

The Donald Cook returned from a very successful counter-piracy deployment with Standing NATO Maritime Group Two on 18 February. The first two months of the year included two brief stops in Djibouti, Djibouti, a north-bound Suez Canal transit, and a liberty port call in Barcelona, Spain. Post deployment, Donald Cook conducted a weapons offload in Yorktown and then a port call at Annapolis, Maryland where Donald Cook anchored to support the USNA graduation week.   Donald Cook supported the future of the Navy by taking Midshipmen to sea for eight PROTRAMIDs or CORTRAMIDs during the summer. On 18 June command pasted from CDR Derek Granger to J. Lee Bennett. Over the 4th of July holiday, Donald Cook escorted PCU

Missouri for her sea trials and in July and August participated in a PASSEX with the Japanese Maritime Self-Defense Force. The final months of year were spent at MHI Shipyard for a maintenance period.
