Ser 02044P51  
23 December 1969

~~CONFIDENTIAL~~ (For official use only upon declassification)

OPNAV NOTICE 03110

From: Chief of Naval Operations  
To: Distribution List

Subj: Allowance and Location of Naval Aircraft (U)

Ref: (a) OPNAVINST 03110.1A (Navy Aircraft Program (Gray Book))  
(b) OPNAVINST 5442.2C (Aircraft Accounting System)  
(c) NAVAIRINST 13100.7

1. (U) Purpose. To indicate the following by units
  - a. The operating aircraft allowance
  - b. The actual on-hand aircraft inventories as of 30 November 1969.

2. (C) General Instructions

- a. This Notice establishes unit operating allowances of the Naval Aircraft Program within each major operating command. The allocation of Naval aircraft by model is reflected in reference (a), which establishes the allocations for major operating commands in accordance with the approved planning factors and available inventory. In those instances where apparent inconsistencies occur between operating allowances and allocation, reference (a) shall be the controlling Instruction since it represents the planned implementation of the aircraft program for which Congress approved and provided funds. Actual on-hand aircraft inventories are developed by reference (b). The Naval Air Reserve Training Command as shown herein has been established as a major command for aircraft logistics purposes only.

- b. If the allowances set forth are not deemed suitable for the mission which an activity or command must support, the Chief of Naval Operations will consider recommendations for changes in models and allowances of aircraft. However, any requests for such changes that would result in an increase in a major command's total aircraft operating allowance should contain that command's recommendation for a compensatory reduction.

- c. Specific assignment of aircraft to individual offices is prohibited by the Secretary of the Navy.

- d. Designation of aircraft listed herein is in conformance with reference (c).

GROUP 4 - Declassify on 30 November 1981

~~CONFIDENTIAL~~

e. Planned operating levels of target drones (capable of carrying a pilot) are contained in reference (a).

3. (U) Distribution. Each addressee is requested to review his need for this publication and inform this office (OP-512D) if subsequent editions are not desired. Requests for additional copies or addition to the distribution must be justified on an individual basis.

4. Cancellation. This Notice is cancelled and may be destroyed by burning when the next issue is received. For record purposes, cancel 28 February 1970.

R. B. BALDWIN  
By direction

STATUS OF NAVAL AIRCRAFT INVENTORY

Naval aircraft "inventory" is comprised of all aircraft which have been accepted, but not stricken, by the Navy. An aircraft is accepted when legal custody is assumed by the Navy, and is stricken when officially separated from Navy custody by the OPNAV Notice: "Separations From and Reinstatements to the Naval List of Aircraft".

Naval aircraft are presented herein under various combinations of three basic classifications: STATUS, CLASS, SUBCLASS and MODEL, and CUSTODY. "Status" refers to the classification of the functional employment or condition of the aircraft. The various STATUS codes (situations) by which Navy/Marine aircraft are classified appear in the Status Code Table included in this publication. Likewise, the table Naval Aircraft Classes, Subclasses and Models illustrate the current system of aircraft classification by CLASS, SUBCLASS and MODEL. Class of aircraft refers to the general mission purpose of aircraft design e.g. fighter, attack, patrol etc. Subclass refers to the next lower level of classification and more specific mission purpose or design e.g. fighter photo, recon etc. Model refers to a particular type of airframe. Custody refers to the unit (reporting custody) and command (controlling custody) to which the aircraft has been assigned.

GLOSSARY OF TERMS (AIRCRAFT)

**ACTIVE PROGRAM AIRCRAFT** - Operating and pipeline aircraft.

**CONTINGENCY RESERVE** - These aircraft are those which have been retired from the program inventory as a consequence of completion of standard service life but which have been retained in the inventory to alleviate mobilization deficiencies. Only those aircraft are retained in contingency reserve for which spare part support is available for at least one more Standard Rework and one more service tour/period (also known as Stored, Service Life Complete).

**FUTURE DRONE CONVERSION** - Non-program aircraft being held in a storage facility pending conversion to a drone configuration.

**INACTIVE PROGRAM AIRCRAFT** - Program aircraft which are either grounded administratively, stored, or in the process of first delivery (new aircraft).

**INVENTORY** - All Naval aircraft which have been accepted into, but not Stricken from the List of Naval Aircraft. Inventory may be divided into Program and Non-Program categories.

**LOCATION** - Data are shown by location in tables 8, 10, 11 and 14. Location refers to the physical location, at month end, of the unit having reporting custody of the aircraft.

**NON-PROGRAM AIRCRAFT** - All aircraft of project development and service test (BIS) configuration, target drones (man-carrying), aircraft retired but not yet stricken (including aircraft stored with service life completed), and aircraft on loan or on bailment contracts. Drone Anti-Submarine Helicopters (DASH) are also included in this category.

**OPERATING AIRCRAFT** - This category includes aircraft in operating (A-) status and those awaiting operating status in the physical custody of an operating command (B1, B2, B3, B4, B5, B6, B7, B8, BH, BJ, BK, BL, BM). Operating status aircraft are those in custody of designated units for flight in performance of a Navy/Marine mission. "Awaiting operating" includes only those aircraft in the physical and reporting custody of an operating command pending, and intended for, use in operating status. Aircraft in the awaiting operating category do not require rework prior to the assumption of operating (A-) status.

**OPERATIONAL AIRCRAFT** - All aircraft in the controlling custody of the operating commands (COMNAVAIRLANT, COMNAVAIRPAC, CNATRA, CNARESTRA, NAVAIRSYSCOM STF, and NAVAIRSYSCOM RDT&E) i.e., operating and operational pool aircraft.

**PIPELINE** - Includes all aircraft in logistic support of the operating segment of the inventory. The logistic Pipeline includes aircraft Enroute to, Awaiting and In either Standard or Special Rework and those aircraft Awaiting transit or Enroute to operating from Standard or Special Rework. New aircraft in process of first delivery and those In Storage are not included in the pipeline category.

**PROGRAM AIRCRAFT** - All production aircraft in the physical custody of Navy and Marine units for which current or future operation within an authorized allowance is intended or can reasonably be expected. Stated differently, the program category includes operating, pipeline, stored (service life not completed), and aircraft in first delivery.

**REWORK** - The restorative or additive work performed on an aircraft or aircraft equipment by Naval Aircraft Rework Facilities, contractors plants and other industrial establishments designated by competent authority. STANDARD REWORK, comprises one of the processes intended to prepare the aircraft to operate through the next full service tour or period. SPECIAL REWORK entails one of the processes intended to repair, modify or modernize the aircraft without direct effect on service life. (See OPNAV INST 5442.2C)

**STORED, SERVICE LIFE COMPLETE (Stored, SLC)** - Completed service life aircraft being retained in storage (also known as Contingency Reserve).

**STORED, SERVICE LIFE NOT COMPLETE (Stored, SLNC)** - Aircraft with service life remaining but currently inactive and being held in storage (formerly, Reserve Stock).

STATUS CODES

Tables 8, 10 and 11 of this Notice include a column headed "STATUS CODES" which refers to aircraft status code classification as defined in OPNAV INSTRUCTION 5442.2C. The codes applicable to Active Aircraft are shown on page 10 of this Notice. For full status code definitions see reference.

The column headed "OPER. STATUS" in Table 5 is a composite of these tables and is explained on page 12.

 CONTRACT PENDING TR  
 GROUNDED BY ADMINISTRATION ORDER X

- NOTES:
- NAVAIRSYSCOM-FS and FAWPRA reporting custodians shall never report aircraft in status codes A-- or B1- through B8- or BH- thru BM-. Custodians of operating commands with aircraft undergoing UPKEEP (standard or special) will not report such aircraft in other than A-- or B1- through B8- or BH- through BM-.
  - Aircraft will not be assigned a B or C series status code if Standard or Special Rework is required prior to assignment in operating status. Status code C-- will be used only and always to describe movement from a Rework process to an operating situation. Status code B-- will be used to describe aircraft awaiting operating or in transit between operational units.
  - Select third character from below listed codes to indicate precise situation: **AIRCRAFT NOT IN TRANSIT**  
 # Completely Ready for Issue  
 N Missing airborne equipment or parts, or discrepancy with airborne equipment. Report discrepancies not classifiable by codes P, Q, R, S or T as airborne.  
 P Missing armament parts or discrepancy  
 Q Missing electronic parts or discrepancy  
 R Missing photo parts or discrepancy  
 S Missing power plant parts or discrepancy  
 T Undergoing calendar inspection
  - Select third character to indicate precise status of ferry movement:  
 # No downing discrepancy. Ferry movement interrupted due:  
 N Airborne equipment or systems  
 P Armament systems  
 Q Electronic systems  
 R Photo systems  
 S Power plant
  - The third character of the "G number" status code will be used to report work stoppage (of 24 hrs duration or more) due to unavailability of parts. Select third character from listing below:  
 # Work proceeding (Retain A/C in G-# status when work proceeding).  
 P Armament parts  
 Q Electronic parts  
 R Photo parts  
 S Power Plant Parts  
 N Airborne equipment, parts
  - CNO approval is pre-requisite before change to Bailment Status.

## NAVAL AIRCRAFT CLASSES AND SUB-CLASSES

This listing shows the current inventory of Naval Aircraft by class and sub-class within this publication. It should be used in conjunction with the following list "Listing of Models in Current Naval Aircraft Inventory" to facilitate finding the allowance for a particular type - model - series of aircraft. For convenience this listing is in the same order as Table Five "Program and Non-Program Aircraft".

CLASS	SUB-CLASS	TITLE	MODELS	CLASS	SUB-CLASS	TITLE	MODELS

## LISTING OF MODELS IN CURRENT NAVAL AIRCRAFT INVENTORY

This listing provides an entry point to Table Five of this publication. For example, to find the overall allowance for C-1A Aircraft, look in this listing for the C-1A (listing is alphabetized by basic mission and type, i.e. the letter which precedes the hyphen) where reference to VRC will be found. Enter Table Five and find the breakdown of the class VR, then the sub-class VR C. In that sub-class find the type - model - series -- C-1A. This type - model - series is further divided by command (LANT, PAC, NATRA, etc.)

UNCLASSIFIED

PRIMARY USE CODES

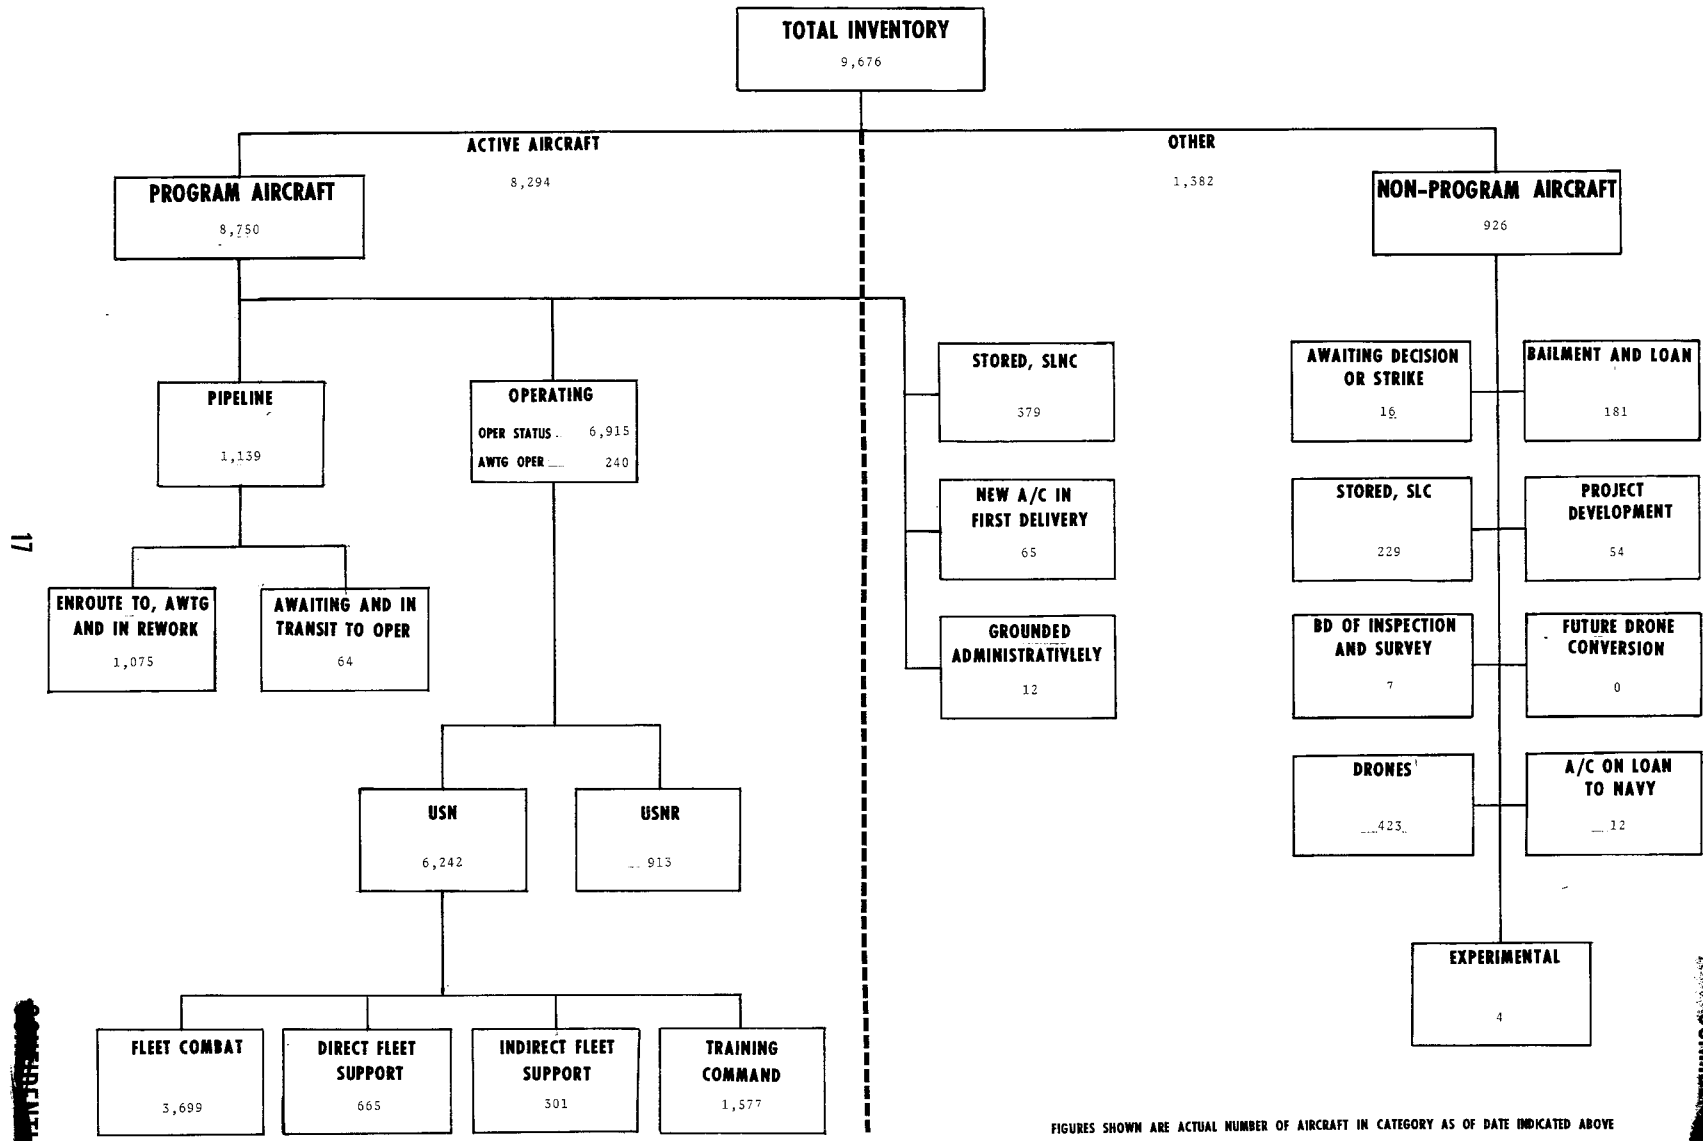

Aircraft are assigned to operating units to perform the following tasks.

- A1. COMBAT. Aircraft assigned primarily to inflict damage on the enemy.
- A2. COMBAT SUPPORT. Aircraft assigned primarily to provide direct support to forces which inflict damage on the enemy.
- A3. STUDENT PILOT/NFO/CREW TRAINING. Category includes aircraft assigned to syllabus training leading to designation as Naval Aviator or NFO and aircraft assigned for technical and specialized training of crew personnel.
- A4. RESERVE TRAINING/POST STUDENT TRAINING. Aircraft assigned primarily for individual syllabus training of designated Naval Aviators.
- A5. SPECIAL PROJECTS. Aircraft assigned to scientific programs or other missions not elsewhere classified.
- A6. COMBAT READINESS TRAINING. Aircraft assigned primarily to provide the means for individuals to meet minimum proficiency standards imposed by CNO.
- A7. WEAPONS SYSTEMS EVALUATION. Aircraft assigned primarily for tactical evaluation of aircraft and associated weapons systems.
- A8. UTILITY. Aircraft assigned for non-scheduled transport of passengers for administrative purposes, courier service, and special missions not elsewhere classified.
- AH. MAAG, MISSION AND ATTACHE. Aircraft assigned to MAAG, MISSION and ATTACHE activities.
- AJ. TEST AIRCRAFT, NAVY OPERATED. Aircraft assigned primarily for test of the aircraft or its components for purposes of research, development and evaluation.
- AK. TEST SUPPORT AIRCRAFT, NAVY OPERATED. Aircraft assigned to provide support to research, development and evaluation programs by actual participation.
- AL. SEARCH AND RESCUE. Aircraft assigned to shore based activities to provide search and rescue function.
- AM. EXECUTIVE TRANSPORT. Aircraft assigned primarily to administrative transport of high ranking officers and dignitaries.
