ALLOWANCES and LOCATION of NAVY AIRCRAFT

DECLASSIFIED

*by authority of OP-51 on 2 April 1973
by Blake Snyder OP-511*

OPNAV NOTICE PO3110

30 JUNE 1960

**DEPARTMENT OF THE NAVY
OFFICE OF THE CHIEF OF NAVAL OPERATIONS**

CONFIDENTIAL

DECLASSIFIED

DEPARTMENT OF THE NAVY
OFFICE OF THE CHIEF OF NAVAL OPERATIONS,
WASHINGTON 25, D. C.

OPNAV P03110
Op-502D
Ser 02534P50
12 August 1960

OPNAV NOTICE P03110

From: Chief of Naval Operations
To: Distribution List

Subj: Allowance and Location of Navy Aircraft (U)

1. Purpose.

a. To indicate the following by units:

- (1) The operating aircraft allowances (Table 1).
- (2) The actual on hand aircraft inventories (Table 2), as of 30 June 1960.
- (3) The planned assignments of operating aircraft (Table 2).

b. To show the actual on hand program and non-program aircraft inventory in various forms (Section II), as 30 June 1960.

2. General Instructions.

a. This Notice establishes unit operating allowances of the Naval Aircraft Program within each major operating command. The allocation of naval aircraft by model (i.e. operating and operational pool) is reflected in OPNAV INSTRUCTION 03110.1, "U. S. Naval Aircraft Program" (Gray Book), which establishes the operating and operational pool allocations for major operating commands in accordance with the approved planning factors and available inventory. In those instances where apparent inconsistencies between operating allowances and allocations occur, the "U. S. Naval Aircraft Program" shall be the controlling instruction, since it represents the planned implementation of aircraft which Congress approved and provided funds for. Actual on hand aircraft inventories are developed by the Navy Aircraft Accounting System, OPNAV INSTRUCTION P5442.2A. The Naval Air Reserve Training Command as shown herein, has been established as a major command for aircraft logistics purposes only.

b. If the allowances as set forth are not deemed suitable for the mission which an activity or command has to support, the Chief of Naval Operations will consider recommendations for changes in types and allowances of aircraft. However, any requests for such changes that would result in an increase in a major command's total aircraft operating allowance should contain that command's recommendation for a compensatory reduction.

c. Major operating commands are authorized to shift operating assignments (Table 2) from one unit to another on a temporary basis; however, if it is expected that this shift will exceed three (3) months, the Chief of Naval Operations shall be requested to change the authorized operating allowance (Table 1).

d. Specific assignment of aircraft to individual officers is prohibited by the Secretary of the Navy. Aircraft for shore based activities not listed in Table 1 are provided within the allowances of Naval Air Bases, the Naval Air Reserve Training Command, the Naval Air Training Command, and the Bureau of Naval Weapons (Research, Development, Test and Evaluation).

e. Types, classes and models of aircraft listed herein are in conformance with BUAER INSTRUCTION 05030.4 of 23 September 1959.

f. Planned operating levels of target drones (capable of carrying a pilot) are contained in OPNAV INSTRUCTION 03110.1 (U. S. Naval Aircraft Program).

~~CONFIDENTIAL~~

DECLASSIFIED

OPNAVNOTE P03110

3. Classification. The security classification of this publication and all previous editions, thereof is automatically downgraded from Confidential to Unclassified five (5) years after the date of issue on the letter of promulgation. This action is in accordance with Section 3, Change 4 of OPNAV INSTRUCTION 5510.1B. Upon downgrading, this publication will be marked "FOR OFFICIAL USE ONLY."

4. Cancellation. This Notice is cancelled and may be destroyed by burning when the next issue is received. No report of destruction is necessary. For record purposes cancel 30 November 1960.

TABLE OF CONTENTS

SECTION I

STATUS CODES	6
ABBREVIATIONS	7
TABLE 1 PROGRAM OPERATING ALLOWANCES	8
TABLE 2 LOCATION OF TOTAL PROGRAM AND NON-PROGRAM AIRCRAFT INVENTORY	17
TABLE 3 PROGRAM INVENTORY BY STATUS AND PLANNED OPERATING ASSIGNMENTS	43
TABLE 4 TOTAL PROGRAM AND NON-PROGRAM AIRCRAFT INVENTORY BY LOCATION AND ORGANIZATIONAL UNIT	64

GENERAL

The Navy Program aircraft inventory is presented herein in three arrangements:

TABLE 2 is by type of reporting custodian within each command showing, for each unit and model of aircraft, location, authorized operating allowance, and actual inventory.

TABLE 3 is a summary of the actual operating inventory by major commands for each class, configuration and model in the program.

TABLE 4 is in alphabetic order of geographic location except that carriers and other ships are listed first showing for each location the "reporting custodians" or "unit" based there, the total aircraft in custody of each, and a code designation of their respective "command". The column headed Command contains their code designations, which are translated as follows:

11.....LANT.....	Atlantic Fleet (Navy)
19.....LANT.....	Atlantic Fleet (Marine Corps)
21.....PAC.....	Pacific Fleet (Navy)
29.....PAC.....	Pacific Fleet (Marine Corps)
31.....NABS.....	Naval Air Bases (Navy)
39.....NABS.....	Naval Air Bases (Marine Corps)
41.....NABTC.....	Naval Air Basic Training Command
43.....NAATC.....	Naval Air Advanced Training Command
44.....NATTC.....	Naval Air Technical Training Command
50.....NART.....	Naval Air Reserve Training Command
70.....RDT&E.....	Research, Development, Test & Evaluation
88.....BUWEPS.....	Fleet Readiness, BUWEPS

The above classifications are for logistic purposes and statistical convenience and in no way alter any organizational structure or military command established elsewhere by the Navy.

TABLE 1

PROGRAM OPERATING ALLOWANCES

Table 2 reflects planned aircraft model assignments to meet the allowances shown in Table 1. In instances where the Naval Aircraft Inventory contains insufficient aircraft of the types shown in Table 1, Table 2 will indicate substituted models. The primary operating status code included in Table 1 reflects the primary reason or intent for the operating units having an authorized operating allowance therefore. Where inconsistencies appear between the status codes listed in Table 1 and Table 2, differences will be resolved in favor of those listed in Table 1. Revisions to the authorized allowances listed in Table 1 will be indicated by an appropriate symbol for subsequent periods; however, because of budgetary considerations such revision will normally not appear at intervals of less than four months.

STATUS OF NAVY AIRCRAFT INVENTORY

SCOPE OF SECTION II

Navy aircraft "inventory" is comprised of all aircraft which have been accepted, but not stricken, by the Navy. An aircraft is accepted when legal custody is assumed by the Navy, and is stricken when officially separated from Navy custody by the signature of the Deputy Chief of Naval Operations (Air) to the monthly notice "Separations From and Reinstatements To the Navy list of aircraft".

Navy aircraft are presented under three basic classifications: STATUS, KIND OR CLASS and CONFIGURATION, and CUSTODY. "Status" refers to the classification of the functional employment or condition of aircraft; that is, generally, either undergoing, awaiting, or enroute to either operating, standard rework, special rework, storage, final disposition, or evaluation to determine next action. "Kind or Class and Configuration" refers to physical characteristics; as to general mission purpose of Navy aircraft design, e.g., fighter, attack, patrol, transport, etc. "Sub-Class" refers to the next lower level of classification into more specific mission purpose of design, e.g., all-weather, photographic, etc. "Custody" refers to organizational location; that is, administrative control of assignment, logistic support, and employment of aircraft; and, responsibility to account for and otherwise provide information about aircraft.

Included in Section II are selected inventory statistics for all Navy aircraft except non-man-carrying target drones and guided missiles. (Man-carrying drones and aircraft on loan to Navy are included in tables 12 and 13, but are excluded from all others in Section II.) Succeeding tables and listings represent successive breakdowns, in varying degree of detail, of current TOTAL INVENTORY.

GLOSSARY OF TERMS (AIRCRAFT)

68

TOTAL INVENTORY - Comprises all man-carrying Naval aircraft (including man-carrying drones) in the custody of all Navy and Marine organizations and units which have been accepted but not yet stricken. Total inventory may be divided into Program and Non-Program categories.

PROGRAM AIRCRAFT - Comprise all production aircraft in the physical custody of Navy and Marine units for which current or future operation within an authorized allowance is intended or can reasonably be expected. Stated differently, the program category includes operating, logistic support and reserve stock aircraft.

NON-PROGRAM AIRCRAFT - Comprise all aircraft of project development and service test (BIS) configuration, target drones (man-carrying), aircraft retired but not yet stricken (including contingency reserve), and aircraft on loan or on bailment contracts.

OPERATIONAL AIRCRAFT - This grouping includes all program aircraft in the controlling custody of the operating commands (COMNAVAIRLANT, COMNAVAIRPAC, CNATRA, CNARESTRA, NABS, and BUWEPS RDT&E) i.e., operating and operational pool aircraft.

OPERATING AIRCRAFT - are those aircraft in the custody of designated units for flight in performance of a Navy mission therefor, in accordance with, and in direct assignment against OPNAV planned operating assignments. Operating aircraft may be further classified by primary mission of unit having custody - "Combat", "Direct Combat Support", "Indirect Combat Support", "Air Training" and "Reserve (USNR-USMC) Training".

LOGISTIC SUPPORT - Comprise aircraft in the Non-Operational Support and Operational Pool categories (see below).

OPERATIONAL POOL AIRCRAFT - are non-operating aircraft in custody of the operating command, i.e., pipeline aircraft in support of the operating program. Pool aircraft are often further classified as between "Ready For Issue" (those new or newly reworked aircraft awaiting issue to an operating unit) and "Not Ready For Issue" (aircraft in process of rework or return to BUWEPS).

NON-OPERATIONAL SUPPORT - aircraft are those in custody of BUWEPS (Fleet Readiness) for purposes of rework.

RESERVE STOCK - are program aircraft in the controlling custody of BUWEPS (FR) which are not currently and actively engaged in any of the various logistic processes (i.e., In, awaiting or enroute to operating or to rework) required in normal transition through standard service life.

CONTINGENCY RESERVE - aircraft are those which have been retired from the program inventory as a consequence of completion of standard service life but which have been retained in the inventory to alleviate mobilization deficiencies. Only those aircraft are retained in contingency reserve for which spare part support is available for at least one more overhaul and one more service tour.

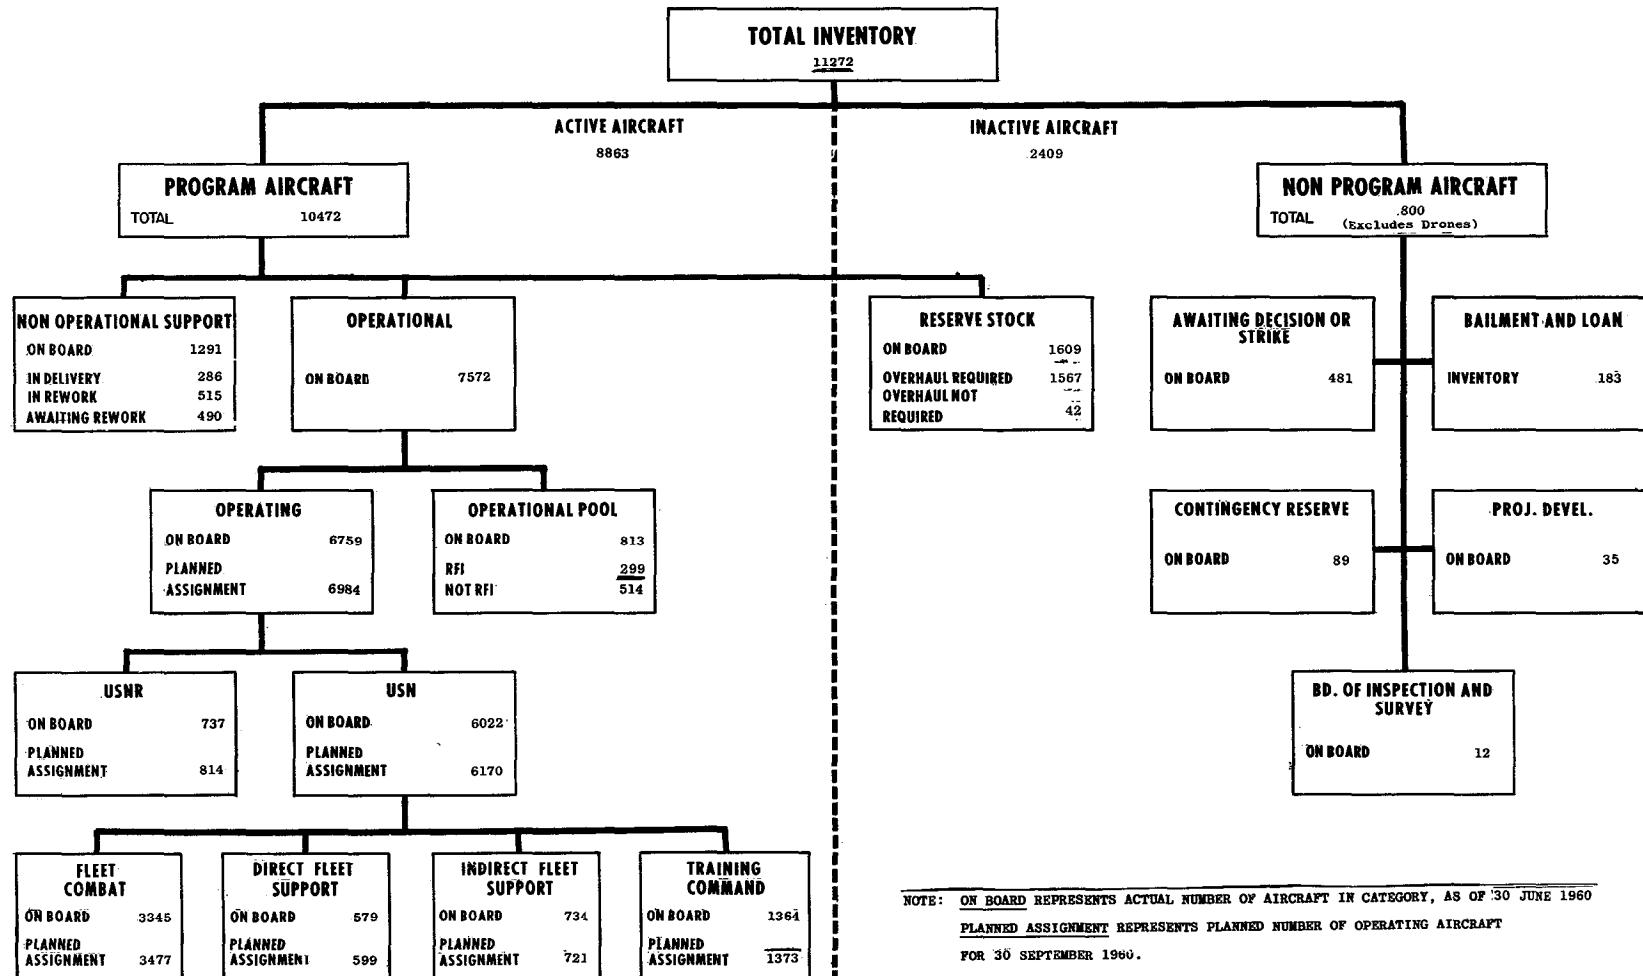

ACTIVE AIRCRAFT - Operating aircraft and aircraft currently engaged in logistic support of operating aircraft.

INACTIVE AIRCRAFT - Non-program and Reserve Stock aircraft.
