7 November 1977

~~CONFIDENTIAL~~ (Unclassified upon removal of enclosure)

OPNAV NOTICE C3110

From: Chief of Naval Operations

Subj: Allowance and location of naval aircraft

Ref: (a) OPNAVINST C3110.1B, U.S. Navy Aircraft Program, of 2 May 73
(b) OPNAVINST 5442.2D, Aircraft Inventory Reporting System, of 31 Aug 73
(c) OPNAVINST S5513.2 of 21 July 1977

Encl: (1) Allowance and Location of Naval Aircraft

1. Purpose. To promulgate unit operating aircraft allowances for FY 78 and actual on-hand aircraft inventories as of 30 September 1977.

2. General Instructions

a. Enclosure (1) establishes unit operating allowances of the naval aircraft program within each major operating command, projected for end FY 78. The allocation of naval aircraft by model is reflected in reference (a), which establishes the allocations for major operating commands in accordance with the approved planning factors and available inventory. In those instances where apparent inconsistencies occur between operating allowances and allocation, reference (a) shall be the controlling instruction, since it represents the planned implementation of the aircraft program for which Congress approved and provided funds. Actual on-hand aircraft inventories are developed by reference (b).

b. If the allowances set forth are not deemed suitable for the mission which an activity or command must support, the Chief of Naval Operations will consider recommendations for changes in models and allowances of aircraft. However, any requests for such changes that would result in an increase in a major command's total aircraft operating allowance should contain that command's recommendation for a compensatory reduction.

c. Specific assignment of aircraft to individual officers is prohibited by the Secretary of the Navy.

d. Designation of aircraft listed herein is in conformance with reference (a).

e. Reporting custodians shall select and report operating and awaiting operating status codes, so that the primary use feature of the status code will conform to assigned primary use codes of allowed aircraft.

f. Planned operating levels of target drones (capable of carrying a pilot) are contained in reference (a).

3. Distribution. Each addressee is requested to review his need for this publication and inform the Chief of Naval Operations (Op-508) if subsequent editions are not desired. Requests for additional copies or addition to the distribution list must be justified on an individual basis. Effective with the 30 September 1976 edition, this book became a semi-annual publication.

4. Classification. Users of this publication should refer to reference (c) to ascertain the proper classification of extracted information.

~~CONFIDENTIAL~~

OPNAVNOTE C3110
7 November 1977

5. Cancellation Contingency. This notice is canceled upon receipt of the superseding issue, and may be destroyed by burning.

STATUS OF NAVAL AIRCRAFT INVENTORY

Naval aircraft "inventory" is comprised of all aircraft which have been accepted, but not stricken, by the Navy. An aircraft is accepted when legal custody is assumed by the Navy, and is stricken when officially separated from Naval custody by inclusion on the CNO promulgated listing entitled Separations from the Naval Aircraft Inventory.

Naval aircraft are presented herein under various combinations of three basic classifications: STATUS, CLASS, SUBCLASS and MODEL, and CUSTODY. "Status" refers to the classification of the functional employment or condition of the aircraft. The various STATUS codes (situations) by which Navy/Marine aircraft are classified appear in the Status Code Table included in this publication. Likewise, the table Naval Aircraft Classes, Subclasses and Models illustrate the current system of aircraft classification by CLASS, SUBCLASS and MODEL. Class of aircraft refers to the general mission purpose of aircraft design e.g. fighter, attack, patrol, etc. Subclass refers to the next lower level of classification and more specific mission purpose or design e.g. fighter photo, recon, etc. Model refers to a particular type of airframe. Custody refers to the unit (reporting custody) and command (controlling custody) to which the aircraft has been assigned.

GLOSSARY OF TERMS (AIRCRAFT)

- ACTIVE PROGRAM AIRCRAFT** - Operating and pipeline aircraft.
- FUTURE DRONE CONVERSION** - Non-program aircraft being held in a storage facility pending conversion to a drone configuration.
- INACTIVE PROGRAM AIRCRAFT** - Program aircraft which are either grounded administratively, stored, or in the process of first delivery (new aircraft).
- INVENTORY** - All naval aircraft which have been accepted into, but not Stricken from the list of Naval Aircraft. Inventory may be divided into Program and Non-Program categories.
- LOCATION** - Data are shown by location in tables 6, 7, 8 and 11. Location refers to the physical location, at month end, of aircraft in custody of unit.
- NON-PROGRAM AIRCRAFT** - Includes aircraft of experimental or target drone (man-carrying) configuration; those retired (awaiting strike or decision to strike or designated for MAP/FMS) but not yet stricken; aircraft stored with service life complete; and those on bailment or loan contracts.
- OPERATING AIRCRAFT** - This category includes aircraft in operating (A-) status and those awaiting operating status in the physical custody of an operating command (B1, B2, B3, B4, B5, B6, B7, B8, BH, BJ, BK, BL, BM). Operating status aircraft are those in custody of designated units for flight in performance of a Navy/Marine mission. "Awaiting Operating" includes only those aircraft in the physical and reporting custody of an operating command pending, and intended for, use in operating status. Aircraft in the awaiting operating category do not require rework prior to the assumption of operating (A-) status.
- OPERATIONAL AIRCRAFT** - All aircraft in the controlling custody of the operating commands (COMNAVAIRLANT, COMNAVAIRPAC, CNR/FOR, NATRA, NAVAIRSYSCOM STF, and NAVAIRSYSCOM AIRCRAFT CUSTODIAN) i.e., operating and operational pool aircraft.
- PIPELINE** - Includes all aircraft in logistic support of the operating segment of the inventory. The logistic Pipeline includes aircraft Enroute to, Awaiting and In either Standard or Special Rework and those aircraft Awaiting transit or Enroute to operating from Standard or Special Rework. New aircraft in process of first delivery and those in storage are not included in the pipeline category.
- PROGRAM AIRCRAFT** - All production aircraft in the physical custody of the Navy for which current or future operation within an authorized allowance is intended or can reasonably be expected. This includes all aircraft in the naval inventory except aircraft of experimental configuration, target drones (man-carrying), aircraft retired but not yet stricken, aircraft otherwise in process of final disposition, aircraft on bailment or on loan and aircraft stored with no operational service life remaining.
- REWORK** - The restorative or additive work performed on an aircraft or aircraft equipment by Naval Aircraft Rework Facilities, contractors plants and other industrial establishments designated by competent authority. STANDARD REWORK, comprises one of the processes intended to prepare the aircraft to operate through the next full service tour or period. SPECIAL REWORK entails one of the processes intended to repair, modify or modernize the aircraft without direct effect on service life. (See OPNAVINST 5442.2D)
- STORED, SERVICE LIFE COMPLETE (Stored, SLC)** - Aircraft held in NAVAIRSYSCOM FS storage in a non-program status which have completed the service life prescribed by OPNAVINST 3110.11K.
- STORED, SERVICE LIFE NOT COMPLETE (Stored, SLNC)** - Aircraft with service life remaining but currently inactive and stored in a program status.

PRIMARY USE CODES

Aircraft are assigned to operating units to perform the following tasks

- A1 COMBAT Aircraft assigned primarily to inflict damage on the enemy.
- A2. COMBAT SUPPORT Aircraft assigned primarily to provide direct support to forces which inflict damage on the enemy.
- A3. STUDENT PILOT/NFO/CREW TRAINING Category includes aircraft assigned to syllabus training leading to designation as Naval Aviator or NFO and aircraft assigned for technical and specialized training of crew personnel
- A4 RESERVE TRAINING/POST STUDENT TRAINING Aircraft assigned primarily for individual syllabus training of designated Naval Aviators
- A5 SPECIAL PROJECTS Aircraft assigned to scientific programs or other missions not elsewhere classified
- A6 PROFICIENCY FLYING PROGRAM Aircraft assigned primarily to provide the means for individuals to meet minimum proficiency standards imposed by CNO
- A7. WEAPONS SYSTEMS EVALUATION Aircraft assigned primarily for tactical evaluation of aircraft and associated weapons systems.
- A8 UTILITY Aircraft assigned for non-scheduled transport of passengers for administrative purposes, courier service, and special missions not elsewhere classified
- AH MAAG, MISSION AND ATTACHE. Aircraft assigned to MAAG, MISSION and ATTACHE activities.
- AJ TEST AIRCRAFT, NAVY OPERATED. Aircraft assigned primarily for test of the aircraft or its components for purposes of research, development and evaluation
- AK TEST SUPPORT AIRCRAFT, NAVY OPERATED. Aircraft assigned to provide support to research, development and evaluation programs by actual participation
- AL SEARCH AND RESCUE Aircraft assigned to shore based activities to provide search and rescue function
- AM EXECUTIVE TRANSPORT. Aircraft assigned primarily to administrative transport of high ranking officers and dignitaries
